

# PROGRAM BRIEF

## Improving Malaria Diagnostics (IMaD)

**Dates of Operation:** September 1, 2007 – September 1, 2012

**Prime Implementing Partner:** Medical Care Development International (MCDI)

**Chief of Party:** Hannan Bestman

**Geographic Focus:** Nationwide

**Program Cost:** \$250,000

**Target Beneficiaries:** pregnant women and children less than five years

### Overview

This project seeks to improve the competence of health workers performing malaria tests (microscopy and rapid diagnostics tests) and the adherence to test results when making therapeutic decisions and to establish a QA program to support malaria diagnostics.
